

Lyman High School Marching Greyhounds Boosters

MISSION STATEMENT

It is the mission of the Lyman High School Band Boosters to assist the Director of Bands and the Director of Auxiliary Teams (Dance, Color Guard & Winter Guard), as well as the Seminole County Public School System in the development and expansion of the music and fine arts program. It is our desire to enhance the Band, Dance, and Color Guard programs by offering financial support through fund-raising activities, building upon our traditions of school spirit, and providing adult volunteers in the areas where needed.

BELIEF STATEMENTS

- We believe that the LHS Marching Greyhounds organization is an important part of Lyman High School and that the band as a whole and the students individually represent the school and our community in an exemplary manner when they perform and travel as a group, and, thereby, add to the overall positive reputation of both the school and community.
- We believe that all participating students should be well-supervised while engaged in the program's activities and that a safe environment should be provided for them.
- We believe that the work, skills, and pride required to build a successful band program will help all participating students learn the importance of commitment to not only self but also to a team, and that the skills fostered will help each student in achieving their goals and meeting the challenges of the future.
- We believe that as family and community members, it is our responsibility to support these students in all that they do.

PLEDGE

- We pledge to support this valued program financially, physically, and morally.
- We pledge to support the music and fine arts curriculum as it is implemented by the Directors of Bands and Auxiliary Teams.
- We pledge to help provide well-supervised activities, along with a safe environment for all participating students.
