How do I store your cakes?

Rum Cake Island cakes may be stored in the refrigerator for up to 3 weeks and in the freezer for up to 6 months. Once opened, our cakes should be wrapped securely with a double layer of plastic wrap, especially before putting them in the freezer. Cakes are best served at room temperature and will remain very moist and delicious even if left under a cake dome on the counter for up to a week. The chances of your cake actually lasting that long are very slim!

Do your products contain nuts?

The Traditional, Banana Nut and Pumpkin contain pecans. There are no nuts in the Chocolate Coconut, only coco'nut'. You may request the Traditional version without nuts.

Do your cakes contain alcohol?

Our cakes do contain rum, however the alcohol evaporates during the baking process, resulting in a super moist and flavorful cake. This is safe for your kids to eat!
